WIFE CONFESSES THAT ELEVEN CHILDREN SUPPOSED HER OWN ARE WAIFS

By EDWARD SHELNUTT (United Press.)

ATLANTA, Feb. 5.—Six of the eleven children foisted on F. E. A. South by his wife, will be adopted and reared in his family, South said at noon today. "Triplets" presented South on New Year's, by his wife, must be sent back to the maternity hospital, he said. Two children died several years ago.

ATLANTA, Feb. 5.—Stunned, humiliated and broken, F. E. A. South, was groping in the dark today endeavoring to solve one of life's greatest problems. "Shall I continue to be a father and care for these children whom I have loved and protected all these years, only to find they are not mine?" South was asking himself today, as he sought an answer to the problem when Mrs. South confessed that eleven children, apparently "born" into their family were waifs adopted from maternity hospitals during the past fourteen years. "Go away and let me think," South said today. "I want to do the right thing, but what a problem to be confronted with."

Children Better Than Movies (The Associated Press.)

ATLANTA, Feb. 5.—Mrs. F. E. A. South, who last month startled Atlanta with the announcement that at the age of 52 she had given birth to triplets, acknowledged in a statement today that the three children, together with six others in the South home, were obtained from foundling institutions. "I don't like to go out. The greatest thing in my life is children. That's why I did it," Mrs. South is quoted as saying.

Mrs. South's husband who is a 60-year old grocery clerk, disclaimed adopting the children from the foundling institution and after her statement was made announced his intention of leaving the city.

# Attend Church Tomorrow and Every Sunday to Win True Success.

The healthy person finds joy and satisfaction in living. Life is what you make it, you get out of it to a large extent what you put into it. In a figurative sense life is like a bank; it pays interest on capital invested.

To those who are striving for life's fullest rewards, there must not only be physical harmony, but a keen, live mind—a balanced mentality. One's daily existence is full of abstruse problems which try the soul and require clear reasoning power and great confidence in God to avoid the rocky shore of failure and despair.

Attendance at the regular services of the CHURCH affords that rich opportunity for mental and spiritual uplift which enables one to bravely shoulder cares and responsibilities as they come, and which makes of life a delightfully satisfying experience.

A well rounded mentality requires the regular, prayerful consideration of higher things than occupy the minds of men and women during the busy week days. The spiritual side of one's nature cannot be neglected without loss to those powers which make possible life's greatest joys and largest rewards.

The Churches of the TRIPLE CITIES announce in today's DAILY NEWS their services on the morrow and heartily invite you to join with them in Divine Worship. Spiritual Wealth is more than worth while. No one can rob you of it. Let the spirit of youth and the wisdom of Heaven go with you to the end of life.

# Attempt Hold-up of Several Cars at Tomoka River

Shortly after midnight last night three men made a number of attempts to hold up automobile parties at Sunset Park, on the bridge crossing the Tomoka river, and from all reports received today were unsuccessful, although a number of people were frightened by such attempts.

About midnight a Buick car left Daytona for Jacksonville and while the driver was crossing the Tomoka bridge, was hailed by a man standing in the roadway waving a lantern. When the driver of the car, fearing a hold-up threw a gun on the man, he backed off into the shade of the trees, making no further attempt. A short distance further north the man stopped two cars, one a Chalmers and one a Packard with parties coming south, and told them of his experience.

When the two cars reached the bridge, they speeded up, crossing the bridge as 50 miles an hour. A man sprang out, waving the lantern as before, the first car striking the lantern and barely missing the bandit.

Following this, within a half hour, two automobiles and a nephew of one of them were driving from Jacksonville to Seabreeze, where they are guests at the Hotel Clarendon. They were flagged by a man as they crossed the bridge and slowed down. The man said he was having trouble with his car and asked assistance.

Just as he stepped from his car, the driver noticed two men step from behind a tree, and make a move toward him. He immediately suspected foul play, dodged back into his car, making his getaway safely. The three men flourished revolvers on the party but no shots were fired.

# LLOYD-GEORGE GIVES WARNING TO GERMANY NOT TO AVOID DEBTS

(International News Service)

BIRMINGHAM, England, Feb. 5.—A stern warning to Germany not to attempt to evade the allies' demand for disarmament and war indemnity, was sounded by Lloyd George in a speech here today. "All peoples are tired of everything having the atmosphere of war," declared Lloyd George. "Our answer to Germany is the sword shall be sheathed for all time. Nothing will give allied powers a desire for action against Germany, except a feeling that they have the same Germany to deal with that treated treaties as scraps of paper. The allies are as united as ever in their purposes." The premier declared the allies are determined that Germany must disarm, despite the fact that Germany is threatened with something like revolution, and declared the allies can have no positive assurance of lasting peace until there is disarmament. Assumption of power by the caste that provoked the war cannot be permitted.

# HARDING EXPECTED TO SPEND TONIGHT NEAR FORT PIERCE

(The Associated Press.)

PALM BEACH, Feb. 5.—President-elect Harding's yacht, the Victoria, pushed northward from Palm Beach today enroute to St. Augustine. Peys has forced cancellation of most stops. Harding had planned on the way, but he still hoped that he might play one game of golf at some point south of St. Augustine. It was hoped the yacht would spend the night somewhere near Fort Pierce.

Life of a Correspondent. Traveling around the country with a president-elect of the United States would appeal to the layman as a most enjoyable tour, especially as all expenses are paid on the railroads, dining cars and at hotels where stops are made. Even auto hire and postage stamps are included in the accounts to be sent into headquarters. And salary checks come regular.

But such a life as a regular diet for about eight months falls on a person and a newspaper man is no exception to the rule. There will be about ten or a dozen in St. Augustine from February 6 to about March 1, who have had President-elect Harding under close surveillance since his nomination at Chicago last June, who have followed him to Florida and down the coast and are now on their way back again.

Just what they think of their assignment is told by them in the following story:

Unhappy is the lot of the newspaper man forced to "cover" the activities of President-elect Harding in this land of sunshine and flowers, surf bathing and golf.

So, worn and weary, the unfortunate ten of these press representatives, who are on the Harding assignment, slept late today in soft, luxurious hotel beds here. There's been an arduous time, what with a week's cruise down the Florida coast, trying by train, motor, launch and word of mouth to keep in touch with the household Victoria and the well-known president-elect sitting on her deck enjoying his pipe and relief from political red tape.

Not All Roses The ten, come to be known as "Harding's Barnstorming Troupe," comprise the eyes of 100,000,000 people or more who wish to see everything there is to see about a president-elect. And when Harding decided he could best escape public curiosity by hiding on the Victoria, he made the job of the press representatives almost as difficult as he is finding his own job of making cabinet awards.

Of course Joe Murphy, assistant chief of the Secret Service, and the man who always blazed the trail ahead of President Wilson when the latter traveled, makes life a little easier for the harassed press, for he knows where Harding is going and, because he has to be there before the president-elect, the correspondents go along with him. Also life is rendered somewhat more endurable by the presence of golf links here and there on route and the surf bathing with all

# Elks to March in a Body to Opening of Charity Fair

With the opening of the big Elks' fair but two days away there is great activity by General Manager Martin and his corps of assistants. Final arrangements were completed, last night for the great event and enthusiasm ran high and spilled over. The opening night is expected to prove a most auspicious occasion and with the earnest effort and enthusiasm that is being put behind the fair there is little reason to doubt that the opening night will exceed even the expectations of the Elks themselves.

The fair is to be opened by the mayor at the Armory on Monday night, February 7. Previous to the hour set for the opening the members of the Daytona Lodge No. 1141, B. P. O. E. will assemble at their home on Volusia avenue march down Palmto avenue to Orange avenue then to Beach street, up Beach street to the Prince George and then counter march to the Armory. # HUNDRED THOUSAND IN CASH AND BONDS SAID STOLEN FROM MAILS

(The Associated Press.)

ST. LOUIS, Feb. 5.—Postal authorities are today continuing the investigation of the mail robbery at St. Charles, 20 miles from here, last night when a registered pouch said to have contained about \$100,000 cash and Liberty bonds was reported stolen from a mail wagon by five bandits who held up the driver.

of its embellishments, feminine and otherwise.

But, by and large, the experience of the correspondents has been set down as arduous, and one of them explains why as follows:

Play "Leap Frog" With Yacht. "It is necessary for us always to be on hand when the Victoria, with Harding aboard, pulls up at a dock. We are forbidden to trail his yacht on the water so we are forced to jump from town to town along the coast, sometimes stopping at three different hotels in a single day, because there is no advance schedule of Harding's stops. He has no set program. If he likes the appearance of a place, the skipper swings the yacht to shore, and the Harding party, with golf bags, disembarks for a game.

"Because he wishes to avoid any public fanfare, the Victoria usually puts up at nightfall at some deserted point along the river. When the president-elect comes ashore the correspondents, of course, stay with him. When he leaves, they hop the first train to what is expected to be his next stop. When train schedules are inadequate they commandeer and auto mobile and occasionally a launch although in event of the latter necessity, a considerable distance separates the president-elect from his trailers.

"Sometimes the correspondents have time and accommodations permitting them to carry their bags, hand-trunks and typewriters with them. Sometimes the getaway does not permit of this and clothes trail the trailers.

"And as for hotels, sometimes we get them and sometimes we don't. On occasions we have slept in tents

# HOSPITALS HARBORING EX-SOLDIERS SAID TO BE FIRE-TRAPS, NOT FIT FOR PUBLIC USE

PLEA MADE FOR SEVENTEEN AND HALF MILLIONS FOR NEW EQUIPMENT (International News Service.)

WASHINGTON, Feb. 5.—Approximately 8000 American soldiers who were wounded or contracted disease during the World War are cooped up in various institutions of the United States where they could not escape with their lives if a conflagration should occur, according to a statement made today by Ewing LaPorte, assistant secretary of the treasury, as supervisor of the public health service has charge of the treatment of disabled veterans.

Hospital facilities are entirely inadequate. It is almost impossible to provide proper medical treatment for all patients thrust upon the public health service. Only two hospitals of the public health service in the United States are modern in equipment. One at Johnson City, Tenn., the other at Marion, Ind. The civil service bill carries \$17,500,000 for this purpose, but \$35,000,000 is needed, it is said.

## SHUN THE COMMON DRINKING CUP

There is disease and death in the use of the common drinking cup. The cup which has come from the lips of somebody else may bring the infection of dangerous diseases to you.

That is why the laws of many states or the orders of city departments of health, forbid the use of the common drinking cup in schools, public buildings, aboard trains, and elsewhere.

Microscopic examination has shown that the edges of cups or tumblers which have been the rounds of the lips of various persons are plastered with a variety of unclean matter, which, if you could see it with the naked eye, would make such cups too repulsive to bring to your own lips.

First, the mucus from the mouth has adhered, bringing with it an assortment of scales from the mucous membrane of the mouth, throat, and sometimes from the nose.

Next, these may be found the germs of pneumonia, those of suppuration which may have come from diseases of the teeth or gums, and germs of tuberculosis or of diphtheria and some times of other diseases.

The list of diseases that may be spread by drinking cups is a long one but in part it includes—

Tuberculosis, the chief among the infectious destroyers;

Syphilis, the oathsome and terrible disease which is much more prevalent than in generally known, and which, aside from the earlier serious troubles, may and often does, five, ten or twenty years later, bring on destructive diseases of the arteries, heart, liver or brain, and which does much to fill asylums with the incurably insane;

Diphtheria, scarlet fever and grip three diseases which are destructive of life and health-shattering for many who survive;

Cerebro-spinal meningitis, and infantile paralysis, two maladies killing many whom they touch and leaving among their surviving victims a train of paralysis, deformities and defects of the special senses and of the mind which are sometimes worse than death.

Shun the common drinking cup!

## RESTRICTING JURIES

"No busy wives or workmen,  
No mothers of children,  
No admixture of men.

"No immature women who giggle, rouge or powder, but do not think."  
"Excellent! Especially the last. But—  
Logically carried out such a rule would disrupt the jury system. Why pick on women? How many men accepted for jury service show any visible signs of thinking? Would it not be wise also to refuse jury service to men who:

Take chances on bootleg whiskey,  
Wear lavender or yellow spats,  
Attend six-day bicycle races,

**NO MEDDLING WITH RUSSIA**

Another champion of French and English capitalists who invested heavily in Russian bonds before the revolution is heralded in the foreign dispatches. Two others have gone before and failed.

The United States can have no legitimate interest in attempting to overthrow the government, even of a Protzky and Lenin, either in the interests of French and English investors who have been caught short, or for the glory of a possible genuine Russian minority leader.

Our own slogan, under the Monroe Doctrine, is "America for Americans." With regard to eastern Europe it should be, "Russia for the Russians."

And in the meantime, if it will add to American prosperity and the well-being of American citizens for us to trade with these Bolsheviks that Europe doesn't like, then who is to say as nay? We don't have to fall on their necks ourselves, just to do business with them.

"No meddling with Russia, and no trade boycotts," will be the best American policy. If Wilson doesn't see to it, Harding should.

**MANAGING ONE'S SELF**

After having allowed our temper to run riot for 40 years, can it be brought into subjection and made to serve us instead of our serving it? Mary Garden thinks it can be done and has set out to prove it.

It has lately leaked out that the incomparable Mary is endowed not only with a silver voice, but with a volatile temper as well.

When she became manager of the Chicago Opera Company recently, she sensed danger ahead and had the good sense to recognize her shortcomings and decide that she must first learn to manage herself if she was to manage others.

The bigness of the task she fully realizes, but declares she is a good fighter and will do the thing she has set out to do, emphasizing her determination by throwing out to the skeptical this challenge:

"Watch me win!"

And she will win. She is the winning sort.

While her fight is going on, the rest of us will look on with absorbing interest, many of us wishing in our hearts that we ourselves had the strength of will to go and do likewise.

**WHERE ONE LEARNS MUCH**

Several guests at a luncheon, years ago, were in heated discussion over a painting that adorned the wall.

Apparently none of them knew its meaning although it represented a scene in the mythology of Greece.

Bored by the conversation, one of them turned to a waiter and insolently demanded to know the picture's meaning.

To his astonishment the waiter gave it immediately.

"In what school have you studied," asked the guest.

"In many schools, sir," replied the humble waiter, "but the school in which I learned most was the school of adversity. Books only have been my friends."

Ten years later all France rang with the fame of the greatest writer of his age, Jean Jacques Rousseau.

**Dues to Chamber Commerce Payable Monthly in Future**

An important change has been made in the system of payment of dues to the Daytona Chamber of Commerce. Heretofore it has been necessary to subscribe for a year, by the payment of the \$25 fee for the entire 12 months.

In order to alleviate the payment of the entire year's dues at one time, the executive board of the Chamber of Commerce has made it possible now that dues may be paid monthly, thereby making easier for some the carrying on of their obligation to the organization.

The subscription list to the local Chamber of Commerce continues to grow daily, many names being added to the lists the past week, proving the great value being derived from the organization, one of the most efficient in the South, under the able guidance of President S. C. Archibald and Executive Secretary S. B. Crosby.

**“Tea for Three” Most Delightful Farce Comedy**

—o—

Were all tea so stimulating as the brew so smartly served in "Tea for Three" it would readily supplant the milk shake as the national beverage. Possibly, it might even bring investigation by the internal revenue agents to ascertain the effect of its insidiously intoxicating qualities, its cordial style and dry humor. In a cold, calm and rational statement is made the admission that "Tea for Three" is actually a brilliant comedy, zesty, scintillating, almost inspirational and delights fully sarcastic. The piece has been written in three acts by Roi Cooper Megrue. It was presented at the Seabreeze Opera House last night and will be shown again this evening.

From the view of dramatists, married life is a total loss without a first-class "triangle." Megrue probably could never have fashioned a tale on "tea for two" certainly not a successful one, for the stage does not recognize conjugality as other than a drab and uninteresting existence.

Trouble and the story are started by the husband's misinterpretation of the intentions of the friend who calls each week for tea and a chat. He does not appreciate the possibility of his wife desiring other company than his own, not even for passing diversion. The husband is intolerant and selfish. Eventually, his reception to the friend becomes rudely inhospitable and he is furnished a revelation of the error of his course by the ingenuity of his clever visitor. A synopsis of the plot would dull its delight of surprise.

DAYTONA BEACH AND SEABREEZE, FLORIDA, SATURDAY, FEB. 3, 1935

### Beach Makes an Impression on Winter Tourist

It is the opinion of many of the winter tourists who have just arrived in Daytona Beach that the city has made a very favorable impression on them. They are particularly impressed by the beautiful scenery, the clean streets, and the friendly people. Many of the tourists are from the North and are looking forward to the warm weather and the beautiful beaches of Florida.

### Income Greater Than Cost, Says Water Plant Man

According to a statement made by the city engineer, the water plant is now operating at a profit. The cost of operating the plant is less than the income it generates. This is due to the fact that the plant is now producing more water than it was designed to produce, and the cost of electricity has decreased.

### PENINSULA LOCALS

The Peninsula Club is holding a social event on Saturday night. The event will be held at the club's new dining room. The menu for the evening includes a variety of delicious dishes. The club is also planning to hold a golf tournament in the near future.

### Tourist Picnic Monday Morning; Meeting in P. M.

A group of tourists are planning to have a picnic on Monday morning. The picnic will be held at a beautiful spot on the beach. In the afternoon, the same group will meet at the city hall for a meeting. The meeting is to discuss the city's plans for the future.

### Beach Booklets to Be Ready Soon for Distribution

The city is planning to distribute beach booklets to the tourists. The booklets will contain information about the city's beaches, hotels, and other attractions. The booklets will be ready for distribution in a few days.

### Beach Makes an Impression on Winter Tourist

E. S. Weimer, an important business man of Sunbury, Pa., who with his family has been a guest at the Seaside Inn for some weeks and who but a few days ago returned from a tour of other Florida resorts, likes the Beach better than ever. Said Mr. Weimer to the News:

"I am so favorably impressed with the attractions of this delightful winter resort that I have written some of my friends at home, who have large means and who are usually looking for a promising opportunity to invest, to come here and look things over. To my mind it appears very inviting, and I look for the constant growth of all of this property along the wonderful beach and as for myself I would be pleased to have a home a little distance from the beach. While away I saw no place that pleases myself or my family as well as this. As yet I have had nothing definite from my friends about coming down in answer to my invitation, but I presume it is because of business conditions in and about our home town. It is particularly industrial community as we have extensive mills and factories and it is also quite a railroad center. I have a report stating that there are thousands of people out of work there just now, and I take it that men with large business affairs on their hands feel they must remain at home and keep on the watch until the readjustment we are hoping and looking for will be accomplished. As for myself I have no fear of any serious financial trouble in this country, but there are some important problems that must be worked out satisfactorily before we again have normal conditions and a stable market."

Mr. Weimer, while here, has been in consultation with F. M. Williams of the Florida Realty company, who has shown him a good many of the attractive realty propositions in this vicinity. Before he left on his brief trip to Palm Beach, Miami and other southern points Mr. Weimer was considerably interested in an 80-acre tract, but to his astonishment he found upon his return that Mr. Williams had sold it, showing something of the demand and how quickly real bargains are snapped up here.

**"MY OWN UNITED STATES,"**  
**PATRIOTIC FILM, TONIGHT**  
The motion picture film entitled "My Own United States" is sure to create a great deal of interest to those who are familiar with the story written by Edward Everett Hale, "The Man Without a Country." This picture will be shown tonight at the Auditorium.

The story deals with a young officer by the name of Phillip Nolan who was rated as being as fine a young officer as there ever was in the "Legion of the West," the name that was given to the western division of our army during those days. Aaron Burr became very much attached to this young officer when he made his first expedition down to New Orleans in 1805. Those two became fast friends. Then, in the days that followed the treason trial took place with the number of court-martials on the officers. One of those to be tried was this young officer, Phillip Nolan. After proven guilty he was asked if he had anything to say and had he always been faithful to the United States, and in a fit of frenzy with an oath on his lips he said: "I wish I may never see the United States again," and his wish was granted, for he was made prisoner and put aboard a ship that kept him from his native land and he was never allowed to hear the name of the United States mentioned and anything pertaining to it. Year after year this continued until his death. He was truly the man "without a country." Be sure to see this picture Saturday night.

Mr. and Mrs. H. C. Gillespie of Wilmore, Ky., arrived today and are being nicely accommodated at the Pinehurst on Peninsula drive. Mr. Gillespie says he left a deep fall of snow at home and that the tobacco situation was never worse in his state. He is a retired business man and they expect to spend the rest of the winter with the sunshine and flowers on the wonderful beach.

### Income Greater Than Cost, Says Water Plant Man

Secretary Treasurer C. H. Wilson of the Daytona Beach water works' affairs that his statement to the council and recently published in the News may give some local taxpayers a misconception of the real conditions.

Mr. Wilson explains that while it is true the city has been selling water at a less rate per gallon than its actual cost; that is also true the income received from Daytona Beach patrons is more than the cost of production. This is because the maintenance charge to each local customer of 50 cents, without reference to the cost of production, was not included in my statement. For instance, the patron using the thousand gallons at 15 cents per gallon, the local price, pays 65 cents, while the one using 2,000 gallons pays 80 cents, or only 40 cents per thousand, the one using 4000 will pay \$1.10, or but 27½ cents per thousand until the patron using 20,000 gallons is reached when his rate has been proportionately decreased.

"It is strange," said Mr. Wilson, "what a difference this little charge of 50 cents makes and yet when it is understood it is very simple. It is true that all the water we sell to Seabreeze we lose on as we collect no maintenance charge from that corporation. It collects one for itself, however. It is fortunate for Daytona Beach that this maintenance charge has made enough difference in the water income to prevent a loss, which certainly would have accrued without it."

**GREAT INTEREST IS  
MANIFEST IN PROGRAM**  
President R. S. Holmes of the Forum is in receipt of the following explanatory letter showing something of the regard in which the Auditorium entertainments are held outside the Triple Cities:

Mr. R. S. Holmes,  
Daytona Beach, Fla.  
Dear Sir:  
Will you kindly mail me a few folders giving the list of entertainments you are giving the people of your cities this winter. We enjoyed the Program so much that we want to attend other good things you have in future. We brought home a large number of folders, but have given the last one away. Very cordially,  
MRS. T. E. ARNOLD,

Mrs. Elmo Riley of the Florida Realty company office, with her brother, David A. Dean, have been called to Jacksonville to look after a business matter.

Mr. and Mrs. Louis Wolfenberg of Paulina, Iowa, have come for the remainder of the season and have secured an apartment at 133 First avenue.

Mr. and Mrs. H. W. Nettleton of Bridgeport, Conn., are recent arrivals at the Dixie hotel.

Mr. and Mrs. A. N. Paston of Waynesville, N. C., are making the Beach an extended visit.

Mr. and Mrs. P. T. Dougher of Franklin, Pa., are pleasantly located for the season at 215 Peninsula drive.

W. A. Paxton of Fairfield, Va., and J. S. Berkner of Culpepper, Va., are among the recent Dixie hotel guests.

Mrs. Carrie Zedler of Atlanta, Ga., are here and have engaged an apartment at 243 Ocean avenue, Seabreeze.

Mrs. Anna E. Wilmarth of Thompson, Pa., is a recent Beach arrival. She has an apartment at 715 Main street.

Mrs. Newton I. Booth of La Porte, Iowa, has registered at a local hotel and will be permanently located within a few days.

There was another delightful card party given by Mrs. W. D. Bond in the lobby of the Dixie hotel Thursday evening. These pleasant events are given every week for the entertainment of the tourists and other guests of the hotel. The first ladies' prize went to Mrs. George P. Johnson. It was a beautiful hand embroidered centerpiece. The men's prize, a deck of cards, decorated with Florida scenery, went to Fred Blum on Orange avenue.

Mr. and Mrs. A. B. Chaplain of Westerville, Ohio, are temporary guests at the Dixie hotel. They are from the boys of the American League, the organ of the Anti-Saloon League. Of this plant Mr. Chaplain said: "This is one of the largest printing plants, outside of the big city dailies, in the country. Tons of printing paper are used in it every day. This institution not only gets out the American League, but as well thousands of pamphlets and all kinds of job work in tremendous quantities are constantly being produced."

Many Triple City people will be pleased to learn that Mrs. Harry Drake, who has been on an extended visit to Kansas City and other northern and western points, has returned to the Beach. For years she was the leader of the choir of the Community M. E. church and is well known as a trained and capable musician. Mrs. Drake owns her home here, but as it is rented she is a temporary guest at The Breakers on the ocean front. She has hosts of friends here who are glad to welcome her home.

Miss Mina Quackenbush of Waterloo, Iowa, is among the recent arrivals. She expects to spend several weeks here.

Dr. E. T. Wilson, the popular and much interested president of the Triple City Tourist Club, is exceedingly anxious that all tourists who possibly can will attend the big "get together" picnic to be held Monday, February 7, from 10 o'clock a. m. to 2 o'clock p. m. After the picnic the entire party will adjourn to the Auditorium for the regular weekly program.

Each person attending the picnic is requested to bring his or her own lunch with the exception of coffee. Everyone there will be served coffee free by the generous members of the Tourist Club.

This is really the first outdoor meeting of all the Triple City tourists so far held this season, and President Wilson is hoping for ideal weather and a delightful occasion.

Prof. Longstreet of the Seabreeze-Daytona Beach schools, will lead off with a 15-minute speech on the League, to be followed by M. T. Stokes, Dr. Scadding and Dr. Rutter, each to have 15 minutes to discuss their views on the subject. Dr. Scadding will then be given five minutes for rebuttal. Following this, anyone in the audience may have three minutes to give views, a large number of prominent people of the Triple Cities already having prepared short discussions of facts on the League for this period.

The usual questionnaire will be held following the debate, making the meeting more than usually a "Community Forum" of free speech and dissemination of ideas.

The public is strongly urged to attend Sunday's Forum meeting.

Miss Mina Quackenbush of Waterloo, Iowa, is among the recent arrivals. She expects to spend several weeks here.

One of the most interesting Sunday Forum meetings of the present season will be held at the Auditorium tomorrow beginning at 2:45, when a musical program of exceptional interest will precede the regular program. Miss Dorothy Bell, noted harpist, will give a short recital on the harp, with the Forum meeting proper commencing at 3 o'clock.

The feature of this Sunday's meeting will be a debate on the League of Nations question, the most momentous one now before the American public, as well as the people of all the earth.

Prof. Longstreet of the Seabreeze-Daytona Beach schools, will lead off with a 15-minute speech on the League, to be followed by M. T. Stokes, Dr. Scadding and Dr. Rutter, each to have 15 minutes to discuss their views on the subject. Dr. Scadding will then be given five minutes for rebuttal. Following this, anyone in the audience may have three minutes to give views, a large number of prominent people of the Triple Cities already having prepared short discussions of facts on the League for this period.

The usual questionnaire will be held following the debate, making the meeting more than usually a "Community Forum" of free speech and dissemination of ideas.

The public is strongly urged to attend Sunday's Forum meeting.

### Beach Booklets to Be Ready Soon for Distribution

An informal meeting of the Daytona Beach-Seabreeze Chamber of Commerce was held Thursday evening at the office of Attorney R. L. Selden the secretary. President Guy B. Bailey and several others vitally interested in the growth and prosperity of the cities were present.

Several important matters touching the immediate welfare of the community were discussed and at a regular meeting to be held in the near future it is believed some definite action will be taken to accomplish some things that will do some public good. All present were optimistic as to the rapid growth and continued prosperity of the beach cities and the sentiment was unanimous that every step possible would be taken to boost anything and everything that spelled "public welfare."

It will be but a few days longer until the new booklets, in which are shown and described many of the attractive features of these cities, will be received by the secretary and ready for public distribution.

Mrs. E. A. Simpson entertained at dinner Monday evening in honor of the birthday of Mrs. Arthur Coffin.

The latest addition to Ortona's program is the new restaurant adjoining the casino. It's unique location directly over the water, its three sides almost wholly of glass, insuring unobstructed views of the beautiful scenery of old hickory, its thoroughly new and modern kitchen equipment, together with the good cooking of the best from New England and the south, form a combination that will be hard to beat. Miss Scholten and Miss Purdy, the young women in charge, will be out to serve not only afternoon tea, but luncheon, dinner and supper. The restaurant will open for business on Monday, the seventh.

## Who In the Halifax Country

## ROCKEFELLER

John D. Rockefeller, one of the world's wealthiest men, is the ideal location for his winter residence, where he spends four or five months of the year. He is known by many names, but perhaps not by the name of Mr. Rockefeller. He is known by the name of Mr. Rockefeller.

Mr. Rockefeller has often expressed his desire to have a winter residence in the Halifax Country. He has been in the Halifax Country for many years and has been very successful in his business.

## HENRY C. ROWE

The great Halifax Country claims residence of many prominent persons, in all lines of endeavor—men who have made great successes in their particular line, placing them above the average as success in life is figured—and one of these, Henry Clarke Rowe, whose winter home at Daytona Beach is one of the show places of the Halifax Country, ranks high among these noted persons who have chosen the Halifax Country for winter residence, because of the climatic conditions, and the natural beauties which abound in this most magnificent country along the semi-tropical Halifax.

The Halifax Country has, in Mr. Rowe, the greatest oyster culturist in America, an authority in the cultivation of the bivalve, and a man who has made oyster growing a great success for others as well as for himself. Mr. Rowe has perhaps been connected with oyster culture longer than any other man in the United States, having been prominently identified with this industry since 1868, or since he was 17 years of age. He has devoted his life to a study of the oyster in all its native haunts, and has raised the art of oyster growing to a high science.

Mr. Rowe was born in New Haven, Conn., April 23, 1851, was educated at Fair Haven Seminary, Gen. Russell's Military Institute at New Haven, and the Connecticut Literary Institute at Suffield.

Many years ago he organized the H. C. Rowe & Company business of oyster growing, of which he is the head, was president for 19 years of the Conn. Oyster Growers' association, president of the Oyster Growers' and Dealers' association of North America for two terms, from which he resigned in 1913, and is a member of the Conn. Academy of Science.

Mr. Rowe is the author of a number of papers and articles on oyster culture for various magazines and for the American and International Fisheries associations, also the author of much legislation relative to the oyster industry.

Mr. Rowe has his summer home at Bath, Me., but spends the greater part of the year at his delightful winter residence in Daytona Beach, taking an active part in all things promoting the Halifax Country.

Daytona and the surrounding Halifax Country is proud to have a man of Mr. Rowe's standing in national and international affairs as a winter resident. The Halifax Country has benefited greatly by Mr. Rowe's choice of his winter home, and has a booster of exceptional value to the community.

## E. D. Anthony Here; Firm in Belief That Florida Is Most Prosperous State in Union

E. D. Anthony of Anthony Brothers arrived in Daytona Friday afternoon from Palm Beach radiating sunshine and optimism, caused by the fact that at this time Palm Beach is entertaining the largest crowd of winter visitors in the history of that popular resort. He is at the big store of Anthony Brothers today and is firm in the belief that Florida is the most prosperous state in the union, although other states that have experienced a depression due to the shutting down of factories are rapidly recovering and business is due for a general revival throughout the nation. In speaking to a representative of the News, Mr. Anthony said: "In our West Palm Beach store we have made more individual sales this season than ever before. While the volume of business isn't as large as last year, due to the fact that prices have declined about average of 25 we are with in 10 per cent of last season's business. I consider this a most flattering showing, because it proves conclusively that many more customers have entered our doors and that the people are buying as of yore."

"It is my firm opinion that prices are now at the low level, because we find that factories are getting behind with orders and that surplus stocks have been absorbed. For the past five weeks we have had the secretary of our company in New York and wired him our daily needs, which he was able to fill promptly until a few days ago, when he reported that factories were again rushed with orders and that shipments would be delayed 10 days. This means that the great American public has resumed buying because they realize that prices have become stabilized."

"During 1920 Palm Beach and West Palm Beach had a phenomenal building boom, the total being \$2,135,000. This was for dwellings and apartment houses. Notwithstanding this increase all houses and apartments are occupied and the hotels, both large and small, are overflowing with tourists. In other words, Florida has reason to be proud of the fact that the tourist crop has not failed. Everyone should be encouraged by this fact and be an optimist. Pessimists are the worst knockers we have. No business man who has the interest of the community at heart should be heard complaining. In Daytona we have probably made more improvements than any other business house during the past year, and Anthony Brothers are well satisfied with the showing so far this season. We are prepared for the busy days that are at hand. All three floors have their mission to perform and satisfied customers fill our aisles each day."

"What Daytona needs is a Tourists' club. We have one in West Palm Beach, and it is a potent force in the growth of the community. By a tourist club I do not mean merely a place for the winter visitors to meet, but a real club so formed as to mold public opinion. Although the tourists may not be able to vote, yet they are entitled to consideration, and if they demand better streets or other municipal improvements their wishes should be heeded. It is all right for the all-year round resident to say that the tourist do not pay taxes, but it is a weak statement, because when a tourist rents your house or occupies your rooms or rents your garage he pays you money with which to pay your taxes. If a business man operates a store only during the tourist season he is a parcel and part of the community, because he pays rent, which enables the landlord to pay taxes. He also introduces new ideas and provides healthful competition, which is the life of trade and the life of a growing community. By all means have a tourists' club and let them meet weekly in the Casino Burgoyne. If they want to criticize Daytona encourage them to do so and profit by their suggestions. To suggest needed improvements is not knocking, because we have to tear down the old before we can build the new." West Palm Beach Tourist club meets every Tuesday. Standing room is a rule. Never less than 450 to 500 in attendance, and the public sits and takes notice when they make a request.

## Crosby Is Chosen Head of Volusia Co. Farm Bureau

At the organization meeting of the Volusia County Bureau of Agriculture and Home Economics, held in DeLand Friday afternoon, S. B. Crosby, secretary of the Daytona Chamber of Commerce, was chosen president of the new organization, a recognition of his successful efforts in organizing the East Volusia council and of his intense interest in the betterment of farming conditions here.

The meeting in DeLand Friday was largely attended, all civic bodies of the county being represented the new organization to be the parent society of the various local councils in the county, which will be increased in number.

Other officers to work with Mr. Crosby in the new organization were elected as follows: R. R. Johnson of DeLand, vice president and Miss N. E. Powell, secretary and treasurer.

Interesting talks on organization, the aims and purposes of the county bureau were made during the afternoon by Secretary Cloverdale of the National Farm Bureau, of Washington; L. M. Rhodes, commissioner of the Florida Marketing Bureau of Jacksonville, and Mrs. Sarah Partridge of the State Home Demonstration department.

Branches of the county organization will now be formed at other places in the county in addition to Daytona and DeLand where local councils are already in a flourishing condition, that agriculturally Volusia county may become even higher on the list of counties in Florida where agriculture reaches its highest state of perfection.

## OSCAR SEAGLE, NOTED BARITONE, HERE ON FEB. 16

Musicians of the Triple Cities are promised one of the greatest treats of a life time on February 16, when Oscar Seagle, one of the finest of baritone voices before the public today will make an appearance in concert at the Palmetto clubhouse, an exceptional opportunity to hear this great artist who has received the greatest wealth of praise by the leading critics of America and Europe, whose beauty of voice, style, interpretation, vocal technique, diction, magnetism and appeal to the public are all equally pronounced.

Oscar Seagle is seldom heard in communities as small as this, but only because he is in Florida this month. It was possible for the Palmetto club to secure him for a concert on the night of the sixteenth.

Seagle is perhaps not as well known as some of America's great singers, whose names have been fostered before the public for many years, but musical critics in every part of America and in many countries abroad give Seagle top place in concert baritone work, even above the greatest.

Krenbiel, of the New York Tribune, dean of American critics, who hears and writes up hundreds of concerts every season, says of Oscar Seagle, "In voice, in style and in intelligence he rises head and shoulders above the crowd of concert aspirants. Mr. Seagle demonstrates that he is nearest of all in artistic kinship to Maud Sembrich. In the field of his vocalizing, in the perfection of his phrasing, in his command of all the nuances of expression, in his diction, the admirable homogeneity of his voice throughout the wonderful range of his breath control, he is a worthy companion of Maud Sembrich and Miss Cull. His program was an interesting one and the beauty of Mr. Seagle's performance was quite beyond praise."

### RIDGEWOOD HOTEL

Last evening at the Ridgewood hotel Dr. and Mrs. William L. Gardiner, who for many years have been winter guests at this popular hotel, entertained a few of their friends in honor of the 41st anniversary of their wedding day. Dinner was served at 7:30 in the beautiful new private dining room of the Ridgewood, and this event was the dedication of this room as well as the celebration of this very important anniversary. The decorations were of the native flowers with poinsettia and palms predominating.

The guests and old time friends of Dr. and Mrs. Gardiner, who enjoyed the event with them, were:

Col. and Mrs. E. P. Woodbury, Dr. and Mrs. D. C. Hawley, Mr. and Mrs. Charles Loring, Mr. and Mrs. Robert W. Weise, Mr. and Mrs. Fred Merry and sister and Mrs. Jack Irwin.

The occasion was heartily enjoyed by all present and at the close of the happy evening the doctor and his wife were the recipients of a handsome souvenir and as well of many good wishes.

On Thursday at the Hotel Ridgewood the guests and many of their friends enjoyed the weekly bridge party. Eleven tables were in play, punch and light refreshments were served and prizes were won by the following players:

Mrs. C. E. Griffing, Danbury, Conn.  
Mrs. C. L. Loring, Boston.  
Mrs. A. Hilliard, Daytona.  
Mrs. C. C. Douglass.

### PRINCE GEORGE

Mr. and Mrs. E. S. Barnes of New Bedford, Conn., who are season guests at the Prince George, met with a serious automobile accident on Thursday evening. They were returning from a pleasure trip to Jacksonville, and when turning out for a passing car they were caught by the soft sand, their car turned turtle, pinning both Mr. and Mrs. Barnes underneath. They had taken into their car a couple of little lads they had passed on the road, just to give them a ride, and it turned out to be a very fortunate courtesy they had shown, for the little fellows worked faithfully in lifting the big car and getting Mr. and Mrs. Barnes from under it.

Mrs. Barnes was badly injured and it was necessary to take six stitches just above the eye. Mr. Barnes was badly bruised but not seriously hurt. They both remained at the Prince George, where they are recovering nicely. They are receiving the professional care of Mrs. E. N. Herdloff, a trained nurse, and the sympathy of many friends.

Mr. and Mrs. George H. Walker of Boston are among the new arrivals at the Prince George. Mr. Walker is one of the owners of the Walker-Gordon milk farms located in various New Jersey places, and this company is one of the largest milk distributors of the country. Mr. and Mrs. Walker live in Boston and will remain at the Prince George for a week or so.

**CAN'T EXCUSE BRIDE FROM JURY SERVICE**  
(International News Service.)

CLEVELAND, Feb. 3.—"No cause shown."

Thus Judge Florence L. Allen, America's only woman Common Pleas judge, tersely dismissed the plea offered by Mrs. Mildred M. Falls, twenty-three, pretty and a recent bride, when she asked to be excused from serving on the jury to try Robert Thompson last November.

"My husband objects," said Mrs. Falls, and Assistant Prosecutor Cassidy thought her excuse good, but the judge thought differently, and she remained on the panel.

## COMMUNICATIONS

Suggestions to the employer in regard to the keeping an employee in an agreeable condition of mind. First you look the whole house over very thoroughly, after doing this you will develop some kind of grievance, imaginary or otherwise, then proceed to magnify the grievance until it attains such proportion that it will have the effect of converting you into a vicious state of mind; generate as much of that disposition as possible. When you think you have yourself worked up sufficiently so that you will be equal to the task of thoroughly humiliating the good and loyal employee, then call the faithful one to your presence, look as severe as possible and proceed to accuse her of everything on the calendar, if possible have a few friends around when you do this so they may witness your servant's confusion. This will afford them a great deal of pleasure and it will have a tendency to increase the embarrassment of the servant after the servant has experienced this ordeal she should become very humble and contrite. The following day should find her in a fine congenial mood, ready and willing to be your most loyal and loving slave.

During the services of the day there will be special music. R. J. Maddaford is the director of the musical program. The weekly prayer meeting is held on Wednesday evening at 7:30. Stranger and homefolk are cordially invited.

## Allen Expresses Thanks for Many Acts of Kindness

George A. Allen of Minneapolis, Minn., who was arrested a week ago last Tuesday evening on the charge of being implicated in the killing of Grady Hames at Daytona Beach on the evening of December 26, and who was last Tuesday bound over for trial before the circuit court but was yesterday released on habeas corpus, is in Daytona today. In an interview with the Daily News, Mr. Allen said he wanted to express his appreciation of all the people who extended him such kindness during his incarceration and to thank the hundreds of people who expressed their confidence in his innocence.

Mr. Allen regrets that he should have been humiliated by the sheriff's office by being charged with the highest crime with which he could be charged, but nevertheless he has no hard feelings against anyone connected with the case.

He says that he learned much about jail methods in Volusia county by his stay in jail. For four days he was not allowed to communicate with his wife or anyone but on the second day that he was in jail one of the deputies came to him and told him that if he wanted a lawyer, he (the deputy) would bring one to him. Mr. Allen has considerable criticism to make of general methods pursued in the county jail.

Sheriff Morris and County Judge J. Lee McCrory seemed to be in considerable of a predicament when Arthur Hames went to the jail and stated positively that Allen was not the man. After Allen had been bound over by Judge McCrory at the preliminary his jurisdiction ceased and neither he nor the sheriff seemed to know how to "turn Allen loose." Finally Judge Hamlin, attorney for Mr. Allen, suggested that he could be released on a writ of habeas corpus before the court commissioner, and thus relieve the minds of the sheriff and the county judge. Hames said that Allen was about four inches taller than his assailant and that the man who abducted him was about 45 years of age and had whiskers.

The ladies of the W. C. T. U. have taken charge of the nursery for the "Bible" Sunday meetings and will have the necessary coats and playthings in order to properly take care of the little folks. It is expected that mothers will leave the little children at the nursery. They will be well taken care of by this competent organization in charge.

Receding Chin.  
Generally speaking, a receding, weak chin is a poor sign in man and woman. It does not denote a warm nature, shows a lack of moral and mental force, and indicates that its possessor is easily discouraged. All the same, it does not do to sum up anyone from the chin alone. There may be other characteristics which counterbalance defects.

## LATEST NEWS OFF THE TICKER FROM NEW YORK MARKET

(Dow Jones Service.)

President Wilson is expected to tell the railroad workers that railroad labor board must decide the wage argument.

That Britain had asked the United States to cancel war debts, and that a refusal was given is the contents of a story today in the New York Herald, quoting the British chancellor of the exchequer.

Dunns report 360 commercial failures in the United States this week against 336 last week, and 132 during the same period last year.

Thompson & McKinnon's stock letter today says: "The outstanding item of interest in the morning papers is the report from Salem, Mass., that the Naumkeag Cotton Mills of that city will start a night shift on Feb. 14, in order to keep up with the revival of their business. Mr. Lamont has been invited to Mexico to help in the adjustment of finances in that country. The bank statement doubtless will be disappointing, but it will

## 80 Years Old - Was Sick

Now Feels Young After Taking E tonic for Sour Stomach

"I had sour stomach ever since I had the grip and it bothered me badly. Have taken E tonic only a week and am much better. Am 80 years old," says Mrs. John Hill.

E tonic quickly relieves sour stomach, indigestion, heartburn, bloating and distress after eating because it takes up and carries out the excess acidity and gases which cause most stomach ailments. If you have "tried everything" and still suffer, do not give up hope. E tonic has brought relief to tens of thousands like you. A big box costs but a trifle with your druggist's guarantee.

offer an explanation for the run up in rates this past week. I see nothing to change the trend of prices. In spots the market becomes overbold. The shorts cover and an advance results. February is a month of readjustment, calling for a revision of ideas, the period of relaxation and the getting away of the big men for their winter rest. I look for a dull and interesting evening up sort of a market today."

## Some Evidence of Crime.

Where victim of a homicide was shot both through the head and body, his ears severed, one eye gouged out, his head and face frightfully mangled, his body dragged 40 yards down a bank, leaving a trail of blood, and then abandoned in the night, court's remark as to importance of case to commonwealth, and to defendant, and that it would certainly appear that some one was guilty of a most heinous crime, was not improper. Commonwealth vs. Sedgwick, 101, 107, 111, 113.
